2-HEAD LED SECURITY LIGHT

SUPERIOR VALUE & PERFORMANCE

PRODUCT OVERVIEW

ETi SSL's 2-Head LED Security Light has a lumen boost function which can be used to increase lighting coverage from 1200 Lumens to 2400 Lumens for broad and fuller light intensity. The light showcases a sensor which detects light or lack of light in specific areas and will ensure safety and awareness, preventing possible injuries and increase property value. Its dusk-to-dawn function can be used to control the lights to automatically turn on or off, or the included photocell cover can be used to control the fixture by switch. The 2-Head Security LED Light emits 28-watts of energy-efficient and cool emissions of premium LED technology conserving electricity, the environment, and your wallet.

Installation is easy due to its mounting bracket, and it highlights a toolless adjustability, enabling you to point heads in a desired direction. The 2-Head Security LED Light is maintenance-free, so there is no need to climb ladders to replace bulbs. Because of its housing of lightweight aluminum, it is suitable for wet locations.

Our entire team takes great pride in our dedication to providing innovative in-stock lighting solutions that typically ship in 2-3 days with the product reliability and quality that you can always depend on from ETi SSL.
