## SilentAire Plasma Technology 12" Flush Mount

Flush mount with air disinfection treatment

The SilentAire flushmounts combine traditional ambient illumination with an internal Plasma Technology generator. An extremely quiet circulation system pulls in ambient air and recirculates back purified air while releasing plasma ions to attract and kill viruses and bacteria on contact. No special installation steps are needed to install and use SilentAire fixtures. Install as a regular luminaire and control the lighting and circulation system by wall switch.

### Features

Built in SilentAire Plasma Disinfection Technology

Green light indicator shows disinfection is on

Coverage up to 188 sqft at a mounting height of 8ft

99.9% kill rate for airborne viruses and bacteria, including COVID-19.\*
